Personal ombudsman

- We help you get the support and services from the community that you need and have legal right to.
- We can assist you in different social contacts and help you coordinate your efforts.
- This is for those who have or are at risk of long-term mental disability.
- We are independent function within the municipality and work on behalf of you.
- This is a free service.
- Confidential.

Based on your needs we develop a plan and together we can achieve your goals.

The goal is to give you a greater opportunity to influence your life and get a well-functioning life.

When we are done with what we have planned we finish our contact but you can contact us again if you feel the need.
